

POS NG is a modern point-of-sale system that adapts to the needs and demands of your business. Thanks to the use of modern technologies, the solution is the perfect fit for retail chains of any size, from the smallest to the largest. In addition, POS NG is built on simple, user-friendly controls and a **smart user guidance** system.

With it, your staff will always know what to offer or recommend to better satisfy customers. Naturally, the system features advanced, anti-fraud solutions and provides a complete overview and statistics of your shops' performance. Still not sure that POS NG is the perfect solution for you?

UNRIVALLED ADVANTAGES...

Extremely fast searching

POS NG allows for full-text searching through **100,000 items within 1 second**

Combine and recalculate with a single click

Seamless combination and recalculation of selected items for **100 different promotions within 50 ms**

Lengthy closing is a thing of the past

Closing the shop's books will no longer waste your staff's time. With POS NG, your day-end closing can be done within **10 seconds**

Training takes no more than 30 minutes

POS NG has been designed with an emphasis on ergonomic controls. Training your team to use the solution takes less than **30 minutes**

Fast data replication and transfer

Replicating data from the headquarters will take no more than **5 minutes**. It is even faster in the other direction. Data from the POS system to the headquarters can be transferred within **0,5 seconds**

15-minute POS installation

A flexible solution that is ready for use almost immediately. **Your POS NG can be up and running in 15 minutes or less**

Data preparation 30, update 1

What does that mean? Simply, you can prepare all the necessary data within **30 minutes**, and subsequent installation will only take **1 minute**

WHO RELIES ON POS SOLUTIONS BY NG RETAIL

ADVANTAGES OF COLLABORATION

- 1 Long-term specialisation in the needs of retail chains
- 2 Vast experience with loyalty, discount and promotional systems
- 3 Support for omnichannel retail
- 4 No limits to the possible uses of our POS system

POS NG IS AVAILABLE ON ANY DEVICE

There's no need to confine your use of the system to a specific device. POS NG is designed to be used anywhere, anytime. The system is thus suitable for laptops, tablets and mobile phones.

POS NG CAN BE USED BY ANYONE

POS NG is ergonomically designed to offer user-friendly controls that require no lengthy training. Particularly valuable for retail chains with high staff turnover. The solution emphasises clear arrangement of all functional and statistical elements, as well as interactivity to guide the staff through the system.
